

We provide immediate response to your needs of inspection, sorting and auto parts reworks.

OUR SERVICES

- Inspection, sorting, and re-work of metal, plastic, leather and fabric material.
- Degreasing of metallic materials
- We pay careful attention to perform the re-work within the parameters established.

BENEFITS OF HIRING OUR SERVICES

- Inspection of raw material, sub-assembly and finished product, according to your requirements.
- We cover contingencies or campaigns to visually or manually inspect your products within your client's facilities or in our warehouse.
